PROFILE

I am a self-driven Computer Engineering student with a decent foundation and strong passion for hardware design, programming, graphic design and system integration. My academic training and hands-on experience leans toward acquiring key skills in Frontend Dev(HTML, CSS, JavaScript),circuit and PLC design, Python, and computer aided design (CAD) tools such as SolidWorks and KiCad. I am known for my ability to remain calm under pressure, my determination to solve complex problems, and my commitment to quality and innovation. I thrive in fast-paced, technology-driven environments and am eager to contribute my skills to impactful engineering projects and cutting-edge development teams.
